Safety luminaire Single Battery
CS_VALUE_MountingMethod.Schienensysteme, Wireless
Basic (WB), 8 h, , IP40, Plastic, white

The simple plastic safety luminaire for fitting on the ceiling is a real all-rounder. The luminaire is equipped for virtually all requirements and always provides the right solution. The IL surface-mounted luminaire comprises just 2 parts; the ceiling section contains the mains supply terminals.

The pre-mounted 3-phase adapter allows for tool-free installation in popular 3-phase tracks, such as Nordic Aluminium GLOBAL pro (previously NOKIA) XTS, XTTS and XTSC.

Wireless control and monitoring for small installations of up to 50 luminaires with **Wireless Basic**. The innovative integrated lens holder with a rapid fitting fixture permits the flexible use of various lens types. Using the right lens allows the distribution of light to be matched perfectly to the application and simplifies illumination which satisfies all relevant standards. A round lens and hall lens are supplied with every luminaire, allowing it to be adapted perfectly to the respective mounting situation. Other lenses, such as a spotlight lens, beam lens or H lens, are available as options.
